

## **EYFS Tigers**

### **Week 6 Spring 1 2025**

Well done everyone on another great term - it doesn't seem possible the children have now been with us for half a year! We are so proud of the progress they are making in all areas and they should be so proud of the effort they are putting in. A huge thanks to all parents and carers for all your support and hard work too.

We carried on our work on traditional story telling with more stories from Grandad and by finishing their own story characters which the children then used to create their own story. We were able to video the children telling their story and share it with parents on Class Dojo. We hope you enjoyed their stories as much as we did.

The children helped at our two drop ins this week for PSED (personal, social and emotional development) as we shared a video and song we are using in Tigers to help us understand our emotions. A huge thanks to all that were able to come and we certainly hope you enjoyed the song!

We finished our topic on 'Where in the world would I find a Polar Bear' with a Design and Technology day creating an animal of our choice out of recycled materials. The children chose their animal and then researched a little about it, then then drew a plan and labelled their drawing. We then had a busy day creating their models, learning how to join. Once the models were finished the children shared them with Mrs Clark and the Year 1 Tigers, they then evaluated their model talking about what they liked best about their model and what they would like to improve on. It was a very busy but fun day and then they got to take their models home to share with their families. A fun end to our topic learning all about animals. Next terms topic is going to be all about plants.

Thank you all for your support over the last half term - do keep up with the daily reading over the holidays if you can and have a lovely break.

As always please do come and ask if you have any questions.
