

**Baslow St. Anne's C of E Primary School**  
Life in all its fullness .... growing healthy minds and hearts together  
Kindness – Respect - Diversity

## Year 1 Tigers

### Week 1 Spring 2 2025

We hope you have all had a lovely half term break and are looking forward to lighter evenings and hopefully warmer weather. Thank you all for managing time to keep practising the reading over half term it makes a huge difference.

The children have enjoyed an exciting return to school with finding out about the celebration of St David's Day. They watched a programme celebrating this special day and then read information and answered questions about St David.

Learning about these Saint days helps reinforce their understanding of the make up of the United Kingdom with it's 4 countries. The children worked with an adult to make a windmill daffodil to bring home, they had to really focus and persevere as it wasn't easy!

We started looking at our new science topic about plants by finding out about living and non living and then relating this to animals and plants and starting to think about the differences and similarities they have.

In maths this week we have been focussing on subtraction - by counting back, finding the difference and using our number bonds. Tricky work!

In our writing this week we have had a big emphasis on incorporating our handwriting skills into our writing, it is a tricky skill to remember all the things needed to write a great sentence, but we have all really tried hard.

Next week will bring further excitement with Pancake Day and World Book Day!  
It is going to be a busy week!

As always any questions please do ask.
