

## EYFS Tigers

### Week 5 Spring 2 2025

In our maths we have been investigating the measurement of weight, using the language of heavy, light, heavier and lighter. We have also been looking at number composition and finding out about 1 more. In our phonics we have been finding out about endings of words, including adding s and es to words and finding out the sounds they make.

As part of our PSHE topic on 'Healthy Me' we have been looking at how important sleep is in helping keep us healthy. The children devised their own bedtime routines and took them home to share with their parents.

We had a fantastic time looking at the chicks that have hatched from our 'living eggs', we found out about what they eat and got to hold them and see close up how they are already developing their adult feathers. We talked about the basic life cycle of a hen and created our own life cycle picture.

We have enjoyed our music lesson with Miss Grant this week and begun to practise our song for next week's Easter service. We hope you are able to come and share this special service with us.

We have also been finding out about Mother's Day, what it is and why we celebrate it, we talked about all the fantastic things our mummies do to help us. We made a card and special key ring to take home and give to our mummies on Sunday.

As part of our topic about plants (What's in the garden?) we have been looking at the different signs of spring including the plants that are starting to grow. We had a wonderfully warm Spring day to explore our school grounds to see these signs. We have also been talking about the new born animals that we might see in Spring.

The children have brought home their 'Home Achievement Sheet' and parent 'Topic Sheet' for parents to fill in as part of their learning journey - do please return on Monday. Thank you in advance.

As always please do come and ask if you have any questions.
