SPRING 1, WEEK 3

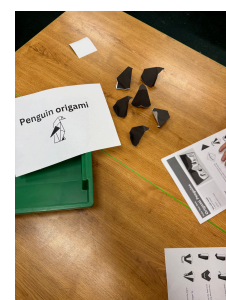

THIS WEEK:

We flew to Antarctica this week!!
Luckyly we got there and back on a day!

The day started with catching out flight and thinking about our senses and feelings! We then got there just in time to see the southern lights with a hot choc and a biscuit (made by Helen!).

After break, we had a carousel of activities including live penguin cams, looking at some non-fiction books, investigating temperature and speed of ice melting, penguin origami and much more!

After lunch, we carved soap (a bit like an ice sculpture) and then had an incredible opportunity to video call Dan and Dani who work at the Halley VI reserach centre in Antarctica!
