SUMMER 1, WEEK 2

THIS WEEK:

Another great week! In maths, we've continued looking at money and we had lots of fun on Friday using the Aldi magazines to help add up our shopping items.

In English, we are finishing off our brochures for the Spanish city we have picked. We have learnt lots of new vocabulary including climate, culture and population. We have used sub-headings, colours and pictures to make our brochures eye-catching.

In Geography, this week, we were looking at UK cities and towns and learnt how to use the index in the back of the Atlas.

In PE, we headed down to the tennis courts and worked on serving and the court layout, playing group games and working independently.

In art, we worked on our photography skills from last week and learnt about camera angles. We then worked in pairs to take a close up shot and then recreate it with pencils and colours.

REMINDERS:

We will be going back down to the tennis courts on Monday for our PE lesson.

Reminder to get a yellow medical form if you need one for whitehall.
