EYFS Tigers

Week 6 Summer 2 2026

We started our week with a very exciting morning as the children came to school dressed up in Victorian clothes to continue our school celebrations around our 150 year school anniversary. They looked amazing and were able to show the whole school during collective worship. They then got to experience some Victorian games and toys which were all a great hit and we still found time to catch up on England's fantastic win in the World Cup!

The children have had a great week finding out all about butterfly life cycles through one of our favourite stories 'The Very Hungry Caterpillar' by Eric Carle. They have learnt about the different stages from an egg to a caterpillar to a cocoon and then finally a butterfly. The children learnt how to make splodge symmetrical butterflies which are on our new display in Tigers. The story also helps the children learn about the days of the week, they made their own caterpillar out of the days of the week. One of the children has some caterpillars at their house and is sharing their progress through photos, we can't wait to see if they grow into butterflies.

We were very lucky to be invited to watch the Year 6 and juniors end of year production in one of their dress rehearsals, it was a great hit with all the children in Tigers and we know the junior parents are in for a treat next week when they get to watch the performances.

In maths this week we have been revisiting our number bonds to 10 and exploring those teen numbers.

The children continue on their amazing writing journeys, do pop in and see their latest efforts in their books. We know you will be as proud of them all as we are.

In our work on Understanding the World we continued to look at the material of water and forces, this week the children tried to make a boat out of plasticine that would float - trickier than you might think.

The children were so pleased and proud to manage to fill up their kindness jar this week which meant they were able to ask Mrs Clark if they could have the pirate/mermaid party they had been working towards. Luckily she agreed as they had worked so hard as a whole team, including the Year 1 Leopards. Well done everyone on putting one of our school values into practise so well. We had a great time down at the park on Friday morning for our party, super costumes and some great party games, we even managed a water battle which mainly ended with the adults getting very wet! Please don't forget to return the home achievement sheet and parent comment sheet for the children's learning journeys.

As always please do come and ask if you have any questions.
